

GROWING TOGETHER

eiwi's IMH Collaborative

What should you expect?

- Engage in shared learning around IMH topics
- Reflect on your day-to-day work with an IMH lens
- Reconnect with peers who share a common foundation in infant & early childhood mental health
- Sustain and deepen the investment you made through your Capstone experience

Who Should Participate?

This collaborative is for any UW IMH Capstone graduate who is actively working in the Birth to 3 Program workforce and seeking to enhance their services.

It is ideal for those who have regular access to children and families and are committed to new ways of thinking.
